Daylesford was founded with a herd of dairy cows, and they remain at the heart of what we do. Our herd of beautiful British Friesians roam freely on the organic pastures surrounding you, and we make and mature our award-winning cheeses by hand here on the farm. In our cheese, you are tasting the living story of the land, artisanal craft, a healthy herd, and our dedication to working with nature.

# THE TROUGH

Our menu comes from our farm, where we raise grass pastured rare and native breeds, a pedigree dairy herd, chicken and eggs. We grow fruits and vegetables and make our award-winning artisan bread, ham, preserves and cow's milk cheeses.

Nature is at the heart of everything we do at Daylesford. We farm, eat and live in a way that nurtures and nourishes her. We hope to inspire you to connect with and celebrate nature, by living in season and in balance with our beautiful planet.
